IIA/27, New Town, Kolkata-700160, West Bengal, India

## Department of Computer Science and Engineering

To  
The Admission Committee,

### LETTER OF RECOMMENDATION

I am writing this letter of recommendation for **Sahil Sartaj** in support of his application to the master's program at your respected university. I have known Sahil Sartaj as his professor and mentor during his Bachelor's degree in Computer Science and Engineering.

Based on my observations, I would like to highlight that Sahil Sartaj is a sincere student, who dedicates total attention to academics and strives to improve wherever necessary, his positive attitude towards learning and insightful questions that immediately set him apart from his peers. I have seen him perform marvelously in his academics, as evidence he maintains his ranking in the top 3 throughout the bachelor's degree. He has always shown a deep interest in understanding computer science concepts coupled with his problem-solving abilities. Unsurprisingly, he performed well in his lab sessions and his lab project received the best scores for the high quality of detailed analytical reports.

Alongside his academic performance, Sahil Sartaj has portrayed great enthusiasm in the college extracurricular activities and was elected as lead student volunteer of the Trends in Artificial Intelligence & Machine Learning Research (TAIMLR'20) an international conference conducted in the university and also chosen as a coordinator of the university Computer Science Day (CS Day) in his 3rd year. One notable achievement during his academic tenure was the publication of an international conference paper derived from his final year thesis. Additionally, he got placed in a multinational company as a software engineer just before completing his final year of bachelor's.

On a personal level, Sahil Sartaj is friendly and kind-hearted, treating those around him with the utmost respect. He is well-known not just among teachers but also with juniors, he is always helping and guiding his juniors. He is self-driven, ambitious, and diligent in achieving his goals.

These are only a few reasons as I can assure you that Sahil Sartaj will continue his efforts to be a valuable part of the student body at your esteemed university and simultaneously shine as an individual. Thus, I would like to recommend his application to your esteemed university strongly. I am certain that the program offered by your institute and global exposure will significantly advance his professional career.

In case any further information is required regarding his candidature please feel free to reach me. I wish him luck and great success in all future endeavors.

Sincerely,

Zafar Sarif,  
Assistant Professor  
Department of Computer Science and Engineering,
